For: PROGNOSTIC METHODS FOR BREAST CANCER

BOX MISSING PARTS
Commissioner for Patents
Washington, D.C. 20231

SECOND SUPPLEMENTARY PRELIMINARY AMENDMENT

Prior to examination of the above-identified application, please amend the above-captioned application as follows:

Please substitute the attached "Sequence Listing" (pages 1-10) for the previously submitted Sequence Listing pages (1-11).

REMARKS

This amendment is made to substitute a corrected version of the Sequence Listing for the version previously submitted with the Preliminary Amendment filed June 10, 2002. The Sequence Listing is revised to change the "Organism" from "Artificial" to "Artificial Sequence" as required in the Notice to Comply with Requirements for Nucleotide Sequence and/or Amino Acid Sequence Disclosures mailed July 24, 2002, and to correct some errors in the formatting. The Sequence Listing contains no new matter.

Entry and consideration of the foregoing amendments is respectfully requested.
